Resolved that two additional peons be entertained.

12. Discussed the present state of the main road and held that the repairs have recently been most ineffectively carried out due chiefly to failure to thoroughly pick the old roads up, to insufficiency of metal, and to stinting gravel and sand.

Resolved that the attention of the Executive Engineer be drawn to these defects and that he be further asked to see that the repairs are better sloped off into the road as the present sudden excrescences formed in the road by the repairs were a source of real danger to horse traffic.

13. Considered a suggestion to obtain a piece of land for a model bakery and dairy.
